SUMMARY OF THE REASONS FOR DECISION:

The computer printout entitled *Picc25-d* is classified as:
Objectionable.

The publication is a black and white reproduction of a printout from a computer image file. The computer printout promotes and supports the exploitation of children and young persons for sexual purposes by explicitly depicting two naked boys engaged in sexual conduct together. The publication is primarily intended for the sexual use of adults with a prurient interest in children and young persons, specifically boys. However, the publication may also be used to encourage boys to participate in similar activities. The publication presents a child and a young person in particular, and children and young persons in general, as legitimate sexual objects and potential 'partners' for adult use. The publication is therefore deemed objectionable.

The criteria applied by the Classification Office resulting in the limit on the availability of this publication are prescribed by law. This classification represents the minimum interference with the freedom of expression affirmed in the New Zealand Bill of Rights Act 1990 that is consistent with preventing likely injury to the public good.
